

Inspection Report

Permit Holder: Coastal GasLink Pipeline Ltd.
Inspection: 2026-0709
Inspection Date: 2026-02-25
Inspection Outcome: Inspected

Inspection Comment:

Inspection with the operator of the Mount Bracey compressor construction site and associated activities.

KP 163+500, Mount Bracey construction. Site received approximately 25cm of snow in the last 24hours and snow removal was active at the time of the inspection. The excess snow is being hauled to a gravel pit area under an agreement with the pit operator. ESC / site drainage has had no major changes since the last BCER inspection. The South slope ESC measures will be completed post freshet. Only one of the three swales is functional and the other two are partially removed for construction. An information request has been submitted for volumes of pumped water from the Mount Bracey construction site to 4A retention pond, for the period January 27, 2026, to February 15, 2026.

Facility construction is active in multiple phases. Observed procedure for the installation of in ground piping in winter conditions and discussed with the operator.

KP 166+000, active storage area containing a C-Ring (fresh water), Vac truck sump (not active at the time of the inspection), equipment and supplies storage, soil storage, Mechanics shop, and a heated soil drying operation. Discussed the tarps on the soil drying piles required maintenance with the operator.

KP 166+500, active multi use area containing a pumped water retention pond and soil storage. There were no concerns noted at the time of the inspection.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.

Permit: 100115709
Facility ID: 00027591
Facility Name: CGLPL Mount Bracey D-099-G/093-J-16 001
Facility Type: Compressor Station
Location: NTS: D- 099-G/093-J-16

Permit: 100115709
