

## Inspection Report

Permit Holder: Pacific Canbriam Energy Limited  
Inspection: 2026-1583  
Inspection Date: 2026-05-13  
Inspection Outcome: Inspected

### Inspection Comment:

Thanks to the Pacific Canbriam Operations Roamer for accompanying me on today's inspections. I appreciated the information that was shared and knowing more about development plans. This is an active single well pad with very little equipment on it.

There is a wooden matt on this access that has been hidden by grass over the years. It appears to have been used the bridge the ditch to the pipeline riser but is no longer used and should be removed.

A satisfactory inspection was conducted.

The following were the only items that were inspected during this inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this inspection.

Permit: 100082806  
Well ID: 31650  
Well Name: PACIFIC CANBRIAM ALTARES D- 088-A/094-B-08  
Location: NTS: D- 088-A/094-B-08
