

Inspection Report

Permit Holder: PETRONAS Energy Canada Ltd.
Inspection: 2026-1998
Inspection Date: 2026-06-11
Inspection Outcome: Inspected

Inspection Comment:

The meter runs are current for their service/calibrations. The wells and facilities have panel fencing to keep any range cattle away from the equipment.

The c-a-24 well head has been suspended properly as well as the well facility.

The c-24 well last flowed in August 2025 and is approaching the 1 year mark to flow or properly suspend the well.

The meter runs were last done in 2023 and need to be done if any of the well are going to flow.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
