

Inspection Report

Permit Holder: Coelacanth Energy Inc.
Inspection: 2026-2016
Inspection Date: 2026-06-11
Inspection Outcome: Inspected

Inspection Comment:

COMMENTS:

-drove to location once in the Spring and was not able to see any indication of a well. Decided to come back in summer when all snow gone. Drove to location again last week and walked the fields to find this well that is showing as "cased" in the BCER system. I was not able to find any indication of a well.

-Today I called and spoke with the area foreman, and he explained that the well was drilled and abandoned. This being the reason I was not able to find the well. He said he would look to ensure that the proper paperwork was filed to move the well from Cased to Abandoned.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.

Permit: 100117503
Well ID: 47669
