

Inspection Report

Permit Holder: Canadian Natural Resources Limited
Inspection: 2026-2223
Inspection Date: 2026-07-02
Inspection Outcome: Inspected

Inspection Comment:

Risk & Data Informed inspection of surface equipment on site.

Performed inspection of location at 1457HRS.

Access road- Muddy. No concerns at the time of inspection.

Lease environment- Limited vegetation on lease. No erosion sediment or water runoff concerns.

Note- Crews working on site at time of inspection (See attached).

Lease Equipment: Wellhead Suspended. No barricades in place (Lower risk). Signage in place. Positive isolation maintained (flow lines removed). Valve Handles chained, locked and secure. Surface casing vent flow test-glove filled in 30 seconds. Performed bubble test from 1307-1317. No bubbles for first 4 minutes, then a constant bubbling for remaining 6 minutes (see attached). No surface casing pressure test appears to have been performed according to BCER internal records.

Officer requests company perform a Surface Casing Vent pressure test and submit to BCER within 30 days.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
