

Inspection Report

Permit Holder: Canadian Natural Resources Limited

Inspection: 2026-2382

Inspection Date: 2026-07-09

Inspection Outcome: Inspected

Inspection Comment:

WA# 12922 - July 9, 2026: 9:16 hrs. on site.

Wellhead: Surface casing valve was open, no LEL gas was measured, and no flow was observed.

KERMIT last gas production date: 2023-01 (Suspended Status): well flowline disconnected and all valve handles chained and locked.

Signage posted on site is compliant to standards.

Well Building: Cata-Dyne heater system vent lines in place.

Storage: double wall tank on metal stand, SDS labels present, and grounded - Out of Service.

Flowline: Note that flowline valves were closed and disconnected to well, building, and pipeline - "Suspended Status".

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
