

Inspection Report

Permit Holder: Cavvy Production Ltd.

Inspection: 2026-2840

Inspection Date: 2026-08-05

Inspection Outcome: Inspected

Inspection Comment:

Well status is Active. Flowline downstream of meter run closed at time of inspection.

Sign compliant to standard.

Last meter cal/orifice plate inspection July 2026.

Building compliant. No leaks. All critical valves secured.

Chem tank compliant.

Comment:

1. 1) Gas detector overranged on LEL from surface casing vent. This is inconsistent with data from 2023, 24, and 25 test results in BCER systems.

Request submitted to CAVVY to re-test in non frozen conditions and submit results via e-submission. See photo in Notebook tab.

2. 2) 6 Jet A drums (1 full, 1 part full, 4 empty) observed on rig mat along access road. CAVVY advises these are from Delta Heli and will be removed at next winter road opening. See photos in Notebook tab.

2)

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
