

Inspection Report

Permit Holder: West Lake Energy Corp.

Inspection: 2026-2884

Inspection Date: 2026-08-12

Inspection Outcome: Inspected

Inspection Comment:

COMMENTS:

-received a complaint from the landowner in regard to the lease being covered in weeds and is concerned that it will spread to his hay fields.

-I drove out to location on August 12, 2026 and found a locked gate. I walked into lease, approximately 300 meters, and found the old lease is still fenced with barbed wire and is covered in foxtail barley.

-As the Permit Holder of this lease, even though the well is abandoned, you are still responsible.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
