

Inspection Report

Permit Holder: PETRONAS Energy Canada Ltd.

Inspection: 2026-3368

Inspection Date: 2026-09-18

Inspection Outcome: Inspected

Inspection Comment:

This single well site was active at the time of inspection. The site has basic production equipment on it such as a wellhead, meter run suitcase, chemical tank and short pipeline riser. ESD equipment compliant at the time of inspection, meter run was current with service date, orifice plate inspection also current. No concerns noted at the time of inspection.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
