

Inspection Report

Permit Holder: Canadian Natural Resources Limited

Inspection: 2026-3376

Inspection Date: 2026-09-22

Inspection Outcome: Inspected

Inspection Comment:

Risk & Data Informed inspection of surface equipment on site.

Performed inspection of location at 1205HRS.

Access road- No concerns at the time of inspection.

Lease environment- Limited vegetation on lease. No erosion sediment or water runoff concerns.

Lease Equipment: Well appears active. No barricades in place (Limited risk due to isolated location). Signage in place. Surface casing vent flow test- Minor Flow detected from glove test (partially filled in 2 min).

Meter building entry test- No alarms on personal monitor. Calibration tags appear to be out of date. Officer spoke with area supervisor and was informed he would look into when last calibration took place, or if there is an exemption. No other concerns at time of inspection.

Chemical tanks and pump on site- No concerns at time of inspection.

Pig Station- No concerns at time of inspection.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
