

Inspection Report

Permit Holder: Canadian Natural Resources Limited

Inspection: 2026-3384

Inspection Date: 2026-09-23

Inspection Outcome: Inspected

Inspection Comment:

Risk & Data Informed inspection of surface equipment on site.

Performed inspection of location at 1145HRS.

Access road- No concerns at the time of inspection.

Lease environment- Vegetation on lease. No erosion sediment or water runoff concerns.

Lease Equipment: Well appears active. Barricades in place. Signage in place. Insulated blanket wrapped around wellhead & on ground. Surface casing vent flow test- Flow immediately detected from glove test. Unable to perform bubble test due to Casing vent configuration. Audible gush from casing vent when glove removed (See attached) and LEL alarm on personal monitor. Internal records indicate multiple pressure tests performed and submitted into BCER as recent as October 2025. Results indicate flow rate of 22.9 m³/day.

Meter building entry test- No alarms on personal monitor. Calibration tags appear up to date. No concerns at time of inspection.

Tanks on site-No concerns at time of inspection.

Note: Drilling and Production Regulation section 41 (4.02) states
"(4.02)Beginning on January 1, 2026, despite subsection (4.01) and subject to subsection (4.03), if all of the following apply, a well permit holder must ensure emissions of natural gas from a surface casing vent flow do not exceed 3 m³ per day:

(a)the surface casing is cemented to the surface;

(b)the surface casing is set below the base of usable groundwater;

(c)the buildup pressure of the surface casing vent does not exceed 1/2 of the formation leak off pressure at the base of the surface casing."

Additional Action Required

Please provide documentation to officer via email to verify all three (A, B & C) requirements are in effect, and an updated pressure test to be submitted to the

BCER within 30 days.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.

Permit: 100001052
Well ID: 00806
Well Name: CNRL ET AL BEG D- 046-B/094-G-01
Location: NTS: D- 046-B/094-G-01
