

Inspection Report

Permit Holder: PETRONAS Energy Canada Ltd.
Inspection: 2026-3395
Inspection Date: 2026-09-24
Inspection Outcome: Non-Compliance(s) Found

Inspection Comment:

Proximity to Risk & Data Informed inspection of surface equipment on site.

Performed inspection of location at 1054HRS.

Access road- No concerns at the time of inspection.

Lease environment- Various vegetation on lease. No erosion sediment or water runoff concerns.

Lease Equipment: Wellhead Suspended. Internal records indicate status is active, but has not produced since October 2024. No barricades in place (Limited risk due to isolated location). Signage in place. Positive isolation maintained (Spec blind located right before tie-in on riser on the opposite side of the lease). Valve Handles chained, locked and secure. Casing valve handles not chained locked and secure, or removed (see attached). Surface casing vent flow test- No Flow detected from glove test.

Building entry test- No alarms on personal monitor. Building appears out of service.

Tanks and secondary containment on site-Both secondary containment plugs are removed and laying on ground. Tanks contain product (Methanal) despite being labeled out of service (See attached).

An Inspection was conducted and as a result Non-Compliance(s) were found and must be corrected. For specifics on the Non-Compliances, refer to the **Non-Compliance Notice**.

To respond to these Non-Compliances, access the CM-IS Permit Holder Application.

Consideration should be given to checking your other locations for similar Non-Compliances.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
