

Inspection Report

Permit Holder: Canadian Natural Resources Limited

Inspection: 2026-3446

Inspection Date: 2026-10-02

Inspection Outcome: Non-Compliance(s) Found

Inspection Comment:

Risk & Data Informed inspection of surface equipment on site.

Performed inspection of location at 1402HRS.

Access road- No concerns at the time of inspection.

Lease environment- Limited vegetation on lease. No erosion sediment or water runoff concerns.

Lease Equipment-Well appears active. No barricades in place (Limited risk due to isolated location). Signage in place. Wellhead partially covered in insulated wrap. Occasional odors in proximity to wellhead. H2S alarm on personal monitor coming from needle valve on wellhead. Officer ceased inspection, left area and contact operator to resolve issue immediately. Surface casing vent flow test- Flow detected, audible gush when glove was removed (unable to perform bubble test due to H2S alarm on personal monitor).

Note: Internal records indicate flow and buildup test completed March 2020.
Results of gas flow rate: 14.8 m3/day.

Note: Drilling and Production Regulation section 41 (4.02) states
"(4.02)Beginning on January 1, 2026, despite subsection (4.01) and subject to subsection (4.03), if all of the following apply, a well permit holder must ensure emissions of natural gas from a surface casing vent flow do not exceed 3 m3 per day:

(a)the surface casing is cemented to the surface;

(b)the surface casing is set below the base of usable groundwater;

(c)the buildup pressure of the surface casing vent does not exceed 1/2 of the formation leak off pressure at the base of the surface casing."

Additional Action Required

Please provide an updated flow and buildup test to the BCER within 30 days. If the results indicate a flow that exceeds 3 m3 per day, please provide documentation to verify all three (A, B & C) requirements are in effect.

An Inspection was conducted and as a result Non-Compliance(s) were found and must be corrected. For specifics on the Non-Compliances, refer to the **Non-Compliance Notice**.

To respond to these Non-Compliances, access the CM-IS Permit Holder Application.

Consideration should be given to checking your other locations for similar Non-Compliances.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
