

Inspection Report

Permit Holder: PETRONAS Energy Canada Ltd.
Inspection: 2026-3458
Inspection Date: 2026-10-01
Inspection Outcome: Non-Compliance(s) Found

Inspection Comment:

The Sirius chemical tanks are compliant in their set up.

The orifice plates have been inspected in 2026, however, there is no documentation for meter runs that have a 5 year exemption. The meter runs were last serviced/calibrated in 2024. Which meters have a 5 year exemption? Please email the inspector with that information by the end of the day on October 22, 2026. Thank you.

The test separator skid has the meter run calibration and orifice plate inspection completed in 2026.

An Inspection was conducted and as a result Non-Compliance(s) were found and must be corrected. For specifics on the Non-Compliances, refer to the **Non-Compliance Notice**.

To respond to these Non-Compliances, access the CM-IS Permit Holder Application.

Consideration should be given to checking your other locations for similar Non-Compliances.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
