

Inspection Report

Permit Holder: Tourmaline Oil Corp.
Inspection: 2026-3522
Inspection Date: 2026-10-20
Inspection Outcome: Inspected

Inspection Comment:

Some observations;

The 5 year exemption tags make it easier to determine compliance. The orifice plate inspections are being done annually and those are recorded and easy to see. There is one orifice plate (well c-92-I) to check on the inspection as the tag states it was last done in April 2025.

Some valve stems are in need of some grease; c-G-92-I where salt water crystals have just coming out of the upper master valve stem, and c-H-92 where the grease is being forced out of the lower valve stem.

Overall, a good inspection.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
