

Inspection Report

Permit Holder: Tourmaline Oil Corp.
Inspection: 2026-3526
Inspection Date: 2026-10-15
Inspection Outcome: Inspected

Inspection Comment:

Check the grounding on one of the portable chemical skids. It is bonded but I don't see a ground wire to a piling like your other chemical skids.

The PIT 6000 for separator pressure doesn't have a clamshell like your other sites. Please check your shutdown key.

The meter runs and other ESDs devices are in compliance.

a-b-12-A well-is suspended and disconnected from the flow line but all the valves need to be locked ort removed.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
