Inspection Report

Permit Holder: PETRONAS Energy Canada Ltd.
Inspection: 2026-3575
Inspection Date: 2026-10-29
Inspection Outcome: Non-Compliance(s) Found

Inspection Comment:
I met the Petronas Operator on another site and since he was going to this site, I gave him the results of my inspection. Thanks to him for our conversation and his actions to look after some of the deficiencies.

The valve stem on the well head choke is starting to weep grease and needs a top up.

Meter calibrations are coming due. It was noted the orifice plates were inspected in Sept 2026.

An Inspection was conducted and as a result Non-Compliance(s) were found and must be corrected. For specifics on the Non-Compliances, refer to the **Non-Compliance Notice**.

To respond to these Non-Compliances, access the CM-IS Permit Holder Application.

Consideration should be given to checking your other locations for similar Non-Compliances.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.

Permit: 100106618
Well ID: 38019
