Inspection Report

Permit Holder: PETRONAS Energy Canada Ltd.
Inspection: 2026-3594
Inspection Date: 2026-10-30
Inspection Outcome: Non-Compliance(s) Found

Inspection Comment:
Observations;

The ESD regulator (supplied air) is on constant vent which suggests the gasket has an issue. Check the bonding and grounding on the pipeline pigging barrel containment bins. The test separator and Sirius chemical skids are compliant in their set up. There are some ovedue calibrations in well meter run calibrations, orifice plate inspections and lift gas meter runs.

An Inspection was conducted and as a result Non-Compliance(s) were found and must be corrected. For specifics on the Non-Compliances, refer to the **Non-Compliance Notice**.

To respond to these Non-Compliances, access the CM-IS Permit Holder Application.

Consideration should be given to checking your other locations for similar Non-Compliances.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.

Permit: 100107623
Well ID: 38552
Well Name: PETRONAS HZ BLUEBERRY D- 028-D/094-A-13
Location: NTS: D -028-D/094-A-13
