Inspection: 2026-3596
Inspection Date: 2026-10-30

Inspection Comment:
The meter run calibrations and orifice plate inspections are all current. I appreciate the 5 year meter run calibration exemption tags which enables compliance to be readily determined and shows this equipment is being well maintained.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
