Inspection Report

Permit Holder: Pavilion Energy Corp.
Inspection: 2026-3842
Inspection Date: 2026-11-19
Inspection Outcome: Inspected

Inspection Comment:
Permit Holder representative met with inspector on site to complete a pre-commissioning and start up inspection as noted in AMS Application #10012645-2 Facility Condition #7.

Completed a site inspection noting the following:

Gate installed to limit access to site.

Calibrations were available for pressure, level switches and meters on the separator skid.

Calibration tags were updated on the Pump Jack.

Action required:

* Catadyne heater regulators need to be vented outside.
* Pump Jack engine needs plugs installed on engine drain valves.
* Provide Calibration sheet for Pump Jack Hi/Lo Presco

All action items were completed by the Permit Holder

Thank you for taking time for the inspection and follow up items.

A satisfactory Inspection was conducted.

The following were the only items that were inspected during this Inspection and does not absolve the company of Non-Compliances which may not have been observed, nor any Non-Compliances which occur subsequent to this Inspection.
